"Historical Discovery."

Under this head the New York Eco d'
Halle of this week gives an account of some
researches of Professor Filopanti, a member
of the Constituent Assembly of Rome, which
certainly have developed singular coincidence
of dates, if nothing else. He dwells upon
three points—namely, that the history of the
times of Rome is authentic and true, that the
great events of Roman history were brought
about by the operations of a secret society, and
that these existences hitherto unknown be-
tween the beginnings of Roman history, the
origin of Christianity and the recent revolu-
tions in Europe. Among his proofs of these
positions are certain dates, of which the Eco
gives the following sample:—

Chronologists fix the birth of Jesus Christ
on the night of the 24th of December, in the
year 748 of Rome, and the incarnation conse-
quently coincidence which, like the preceding
would be altogether insignificant, were it not
joined with very many others, is this, that there
is precisely the same exact distance of nine
months between the 24th of February, the day
of the flight of Louis Philippe, and the
24th of November, the day of the flight of
Pius IX.

All modern chronologists place the founda-
tion of Rome in the year 753, before vulgar
era, or 752, counting according to the astrono-
mical method, which number, added to that
of 1648, makes 2600, exactly half of the 5200
years which the Roman Martyrology gives
from the creation of the world to the birth of
Christ. Establishing a conventional era, which
Signor Filopanti calls the era of Noah, or 2600
years before the vulgar era, the year of the
revolution of Alba, and the foundation of
Rome, is precisely the year 1648 of this era.

The revolution of Alba, effected
by the democratic fraternity which founded
Rome, took place in the month of February—
The flight of the constitutional king Tarquin,
and the foundation of the ancient Roman re-
public, happened on the 24th day of February.
This is made certain by the marbles of the
Capitol. The ancient authors date the founda-
tion of Rome on the 21st of April, of the
Alban year, which began in the season of the
greatest heat, so that April their corresponds
with our November. Plutarch informs us that
Rome was founded on the day of an eclipse of
the moon; now the astronomical tables estab-
lish beyond all doubt, that this eclipse occur-
ed on the 4th of December of the Julian year
365, in which the summer solstice was on the
25th of July by Julian calendar; therefore the
4th of December, by the Julian calendar, is

precisely the 24th of November of the true,
or Gregorian year 1848 of the Notice era—
Hence it appears that the flight of Pius IX,
in the beginning of the third stage of Roman
history, has taken place 26 centuries precisely
after the foundation of Rome, without the
variation of a year or month, or even a day.

An Insane Girl.

The Hartford Times states that an Irish
girl about 20 years of age, and frantically in-
sane, was taken in the woods about three miles
west of that city, on Sunday. She appeared
in the road nearly naked, and waved an old
shawl before the horse of a gentleman that
was passing; she then followed the wagon for
some distance, occasionally drinking water
from the gutter, which she scooped up with
her hand. The gentleman procured assist-
ance at the first house and went after her. She
ran into the woods, and made light of leaping
an ordinary fence. When taken she showed
fight, and it required three men to master her.
She is represented as very beautiful in person
and features, and converses in a foreign lan-
guage as well as in good English. She was
taken to the town House, but will not tell
where she belongs. She says her name is
Magnet Carter.

FREMONT WOOL DEPOT!

DURING the late visit of Mr. KENDALL, he
made arrangements for the opening of a
WOOL DEPOT in Fremont,
on a most extensive scale.
Finding the spacious Ware Rooms which they
now occupy too small to accommodate this addition
to their business

have rented the large building formerly occupied by
Mr. Morehouse, and intend using it for the
Purchase and Packing of WOOL for San-
dusky and the adjoining counties.

They hope to offer inducements to the surround-
ing country to bring to this market their entire clip
the present season, as Mr. Kendall has made
ARRANGEMENTS WITH EASTERN OPERATORS,
which will enable them to pay the very highest
prices for the wool which will come out. They
determined TO FULFILL THE PLEDGES
after another, which they at first made to the public,
so that their Establishment shall indeed be

Head Quarters!

where the wool's farming interest in all this section,
can try and sell to the

GREATEST ADVANTAGE.

The Carriage of Wheat, Oats and Corn,
for which they have this season paid out the
"bucks," have brought farmers from Seneca,
Hancock, and many of the surrounding counties;
and the constant throng at their counters fully
demonstrates that they have made their appearance
in the shape of flags, signs, mottoes, &c., but
it is all "no go," for the people understand that
these "buckens" are no more like the genuine
wool than the "buckens" are like the genuine
wool.

At Head Quarters,

that a "house button" is like a real "California."
They must be excused, however, from all
criminal intentions, since it is evident
that they do not know what the
"Explosion" line run by the
"Telegraph." Bring on
therefore, your Oats,
Wheat, Corn and Wool for the
